

TPP™ THYROID COMPLEX

The “Sluggish Thyroid Syndrome” is one of the most commonly-occurring hormonal disturbances. It afflicts millions of individuals of all ages and cultures. The thyroid gland controls the body’s metabolic activity level and is most commonly known as the “Master of Metabolism.” As one of the primary glands of the body, the thyroid exerts control over several critical functions, including body temperature maintenance, digestive enzyme synthesis, stomach acid production, fuel combustion, fat and protein synthesis, white blood cell synthesis and activity, blood flow and even sex hormone synthesis and activity level.

Many nutrients have been established as “helpers” of this vital gland. Therefore, along with raw glandular extract and herbs, the TPP™ Thyroid Complex is loaded with these “helper” nutrients that offer that support and also offer the regenerative capabilities to the “Sluggish Thyroid Syndrome” sufferer.

POSSIBLE INDICATIONS FOR TPP™ THYROID COMPLEX INCLUDE:

Brittle nails	Joint pain
Constipation	Lethargy or fatigue
Depression	Lymphatic congestion
Difficulty losing weight	Menstrual problems
Dry skin	Muscle weakness
Elevated cholesterol/triglycerides	Recurrent infections
Hair loss	Sensitivity to cold
Headaches	
Infertility	

POSSIBLE CONTRAINDICATIONS FOR TPP™ THYROID COMPLEX INCLUDE:

Heart palpitations
 Hyperthyroidism
 Insomnia (Do not take before bedtime)

FORMULATION RATIONALE:

Thyroid concentrate: This is a pure New Zealand tissue extract.

L-Tyrosine: This is an essential amino acid that is necessary for the formation of all thyroid hormones.

Sea Kelp: This is an excellent source of iodine, which is the basic substance of the thyroid hormones.

Zinc (as Zinc citrate): This trace mineral stimulates immune response. It is essential in the conversion of the (less active) thyroid hormone T4 to T3. The citrate form of zinc is readily absorbable and leaves an alkaline ash residue.

Anterior Pituitary: This pure New Zealand tissue extract produces TSH (Thyroid Stimulating Hormone).

Copper (as Copper citrate): This mineral is essential in the conversion of the (less active) thyroid hormone T4 to T3.

Vitamin B₆ (as Pyridoxal-5-phosphate): One of the important functions of this vitamin is its hormone-building structure.

Hypothalamus: This pure New Zealand tissue extract secretes hypothalamic releasing and inhibitory factors.

Tzyme™ Protease Blend: This proprietary blend of protease aids in the lysis of the animal-based

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Vitamin B ₆ (as pyridoxal-5-phosphate)	5 mg	250%
Iodine (from SeaSel kelp)	90 mcg	60%
Zinc (as zinc citrate)	10 mg	67%
Selenium (from SeaSel kelp)	70 mcg	100%
Copper (as copper citrate)	1 mg	50%
Chromium (from SeaSel kelp)	67 mcg	56%
Molybdenum (from SeaSel kelp)	3 mcg	4%
L-Tyrosine	80 mg	*
SeaSel Kelp	70 mg	*
Thyroid concentrate	50 mg	*
Anterior Pituitary	25 mg	*
Hypothalamus Bovine	15 mg	*
Tzyme™ Enzyme Blend (Protease, Pectinase, Glucoamylase, Peptidase, Phytase, alpha-Galactosidase, Cellulase, Hemicellulase)	70 mg	*

* Daily Value not established
 Other ingredients: gelatin, water.

Tzyme™ is a trademark of a proprietary blend of highly active, pH balanced, GI tract stable and functional enzymes formulated to enhance the digestive process and impart systemic benefits.

Each bottle contains 60 capsules.

Recommended Dosage: Take one capsule two times daily with food or as directed by your health care practitioner.

SYNERGISTIC FORMULA: TPP™ Protease

Thyroid concentrate, Anterior Pituitary ingredients, and Hypothalamus ingredients.

Tzyme™ Polysaccharolytic Blend: This proprietary blend of enzymes facilitates the digestion of all carbohydrates and ensures the absorption of many minerals by preventing the chelating effects of phytates, pectinates, and oxalates.

The "Sluggish Thyroid Syndrome" sufferer will welcome the **TPP™ Thyroid Complex** formulation of raw glandular extracts, herbs, nutrients, and enzymes because it is designed to support the thyroid gland and to help it regain its strength, integrity, and effectiveness as the "Master of Metabolism."
