

# BalanceZyme Plus

BalanceZyme Plus aids in the proper digestion of fats, lowers cholesterol and triglyceride levels, reduces appetite, and controls constipation.

**FORMULATED FOR PEOPLE SERIOUS ABOUT A WEIGHT-BALANCING PROGRAM!**

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Chromium (from) Chromium Picolinate and Chromium Polynicotinate	100mcg	80%
Enzyme proprietary blend	115 mg	
Protease	30,000 HUT	*
Lipase	600 LU	*
Amylase	3,000 DU	*
Cellulase	200 CU	*
Garcinia Cambogia Extract	250 mg	*
Plantain Leaf	75 mg	*
Bladderwrack Algae	75 mg	*
Nettles Herb	75 mg	*
Prickly Ash Bark	75 mg	*
Fenugreek Seed	50 mg	*
*Daily Value not established		

Other ingredients: gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

90 capsules per bottle. No fillers.

**Recommended Usage:** Take 1-2 capsules with each meal or, for added appetite control, take 1/2 hour prior to meals. If appetite loss is not apparent after being on the product for at least 48 hours, then dosage may be increased to 3 capsules with meals. Other factors that can effect dosage are the size of the person and the amount of fat that needs to be lost.

**Indications (uses):**

- Weight management
- Lowering cholesterol
- Easing constipation
- Appetite control
- Lowering triglycerides

BalanceZyme Plus was formulated to assist the person who is seriously interested in a weight management program. Coupled with the proper Transformation diet program for your body type, BalanceZyme Plus will assist in weight balancing for most people. This formulation is a completely natural source of support for the endocrine and digestive system. Ingredients are balanced with enzymes for their effective delivery and utilization.

**Component Benefits:**

The amount of **lipase** enzyme in this formula is one of the highest that is used in enzyme therapy. Lipase has the ability to assist the body by breaking down fat, controlling cholesterol, and balancing fatty acids. **Protease** assists protein digestion and, when combined with lipase, creates support for the liver and the pancreas. The high dosage of protease will also

fortify the blood and serve as a natural diuretic. **Amylase** assists in the digestion of starches and carbohydrates and, when combined with the other enzymes, supports the organs. Amylase even serves as a glucose balancer. **Cellulase** assists the Plantain herb with cholesterol control, constipation relief, and appetite suppression. This formulation provides the correct amounts of enzymes to do all the work above and also to deliver the herbs and nutrients that are in the product.

**Garcinia Cambogia** is an extract of the dried rind of an Asian fruit. The fruit's active ingredient is hydroxycitrate (HCA), which is known to suppress the appetite and to actually inhibit the manufacturing of new body fat from dietary carbohydrates. Instead of encouraging the production of glycogen, the stored form of carbohydrate fuel can be converted for use by the muscles and by the brain. One benefit of HCA is that it appears to preserve lean tissue while fat loss is occurring. Garcinia cambogia is in this product along with the above mentioned enzymes in order to help control the appetite and assist with cholesterol and triglyceride control without diminishing energy production.

**Chromium Picolinate** and **Chromium Polynicotinate** are known to prevent inappropriate hunger by sensitizing brain glucoreceptors to insulin. The insulin will then promote serotonin. It has been proven that this insulin stimulates protein synthesis and inhibits protein degradation both in skeletal muscle and in other body tissues.

**Plantain** assists the body in weight loss through its appetite-satisfying effect and through the reduced absorption of lipids. Plantain is used for soothing gastrointestinal and urinary tract problems that many people feel while dieting or otherwise adjusting food intake.

**Bladderwrack** is a natural iodine for the thyroid and, when delivered by enzymes, offers a healthy supply of nutrients and oxygen. Bladderwrack is known for its ability to bind acids and bile salts, fortifying and adding stamina to the bladder.

**Nettle** has been used medically for its anti-inflammatory effect, its ability to balance blood sugar, and its diuretic capability.

**Prickly Ash** is known for its support of the glands, repair of tissues, and relief from colic, ulcers, and gastrointestinal distress. Prickly Ash is also known for its ability to fortify the nervous system.

**Fenugreek** has been used as a digestive aid and to fortify liver and pancreas function. It is also high in amino acids, supports the glands, and reduces blood glucose and plasma cholesterol levels in diabetics.

# CalmZyme

CalmZyme is formulated to control the effects of a variety of nervous system disorders, including hypertension, hyperactivity, nightmares, and anxiety.

**REDUCE STRESS • CONTROL INSOMNIA • RELIEVE MIGRANE HEADACHES!**

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Enzyme proprietary blend	38 mg	
Amylase	2,500 DU	*
Protease	3,600 HUT	*
Cellulase	160 CU	*
Lipase	10 LU	*
Valerian Root	150 mg	*
Hops Strobile (flower)	77 mg	*
Skullcap (herb)	75 mg	*
Wild Lettuce (leaf)	25 mg	*
*Daily Value not established		

Other ingredients: gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

100 capsules per bottle. No fillers.

**Recommended Usage:** Take 1 - 2 capsules as needed for stress relief and/or 3 - 4 capsules before bed to aid in restful sleep. This may need to be taken more than once during the night for an insomniac until they break the pattern. For headaches (including migraines), take 3 capsules of CALMZyme and 2 capsules of EXCELLZYME together as needed.

**Indications:**

- Insomnia
- Nervous disorders
- Stress
- Anxiety syndrome
- Nightmares
- Hysteria
- Hyperactivity
- Hypertension
- Nervousness
- Headache
- Migraine

CALMZyme was formulated for the purpose of stress relief. It feeds and fortifies the nervous system as a whole. Those suffering from insomnia, hypertension, headaches, anxiety, hyperactivity, or any stress-related disorder may thus benefit from this formulation.

**Component Benefits:**

**Valerian Root** is one of the best herbs of a relaxant nature. It is not a narcotic and yet it assists in the relief of pain, promoting a healing effect upon the nervous system. Studies of Valerian have shown a marked increase in concentration abilities and energy levels. It is a primary sedative and will help when sleep disorders are the result of anxiety, nervousness, exhaustion, headache, or hysteria. In addition, it has been especially effective in treating the tachycardia that immediately precedes sleep.

**Hops** are one of the traditional nervous system (nervine) sedative-type agents used in this formulation. Hops are most commonly used for their calming effect on the nervous system and are recommended for nervous diarrhea, for insomnia, and for restlessness. A recent study showed that Hops truly are sedatives (as opposed to merely muscle relaxers). Hops are also fast-acting.

**Skullcap** has a history of pain relief usage but has been used even more widely for pains associated with nervous disorders. It may best be considered a minor neural sedative whose main purpose is to induce sleep - a necessary part of all healing.

**Wild Lettuce** has been used to relieve pain by lessening the excitability of nerves and nerve centers. It has proven useful as a sleep inducer as far back as any record can be found. In the late 1600s, for example, Dr. William Salmon suggested that it was used to induce sleep.

# DigestZyme

DigestZyme begins the process of food digestion in the stomach, reducing digestive stress on the pancreas.

## ASSISTS COMPLETE AND EFFICIENT FOOD DIGESTION!

SUPPLEMENT FACTS		
Serving Size 2 capsules		
Amount Per Serving		% Daily Value
Enzyme proprietary blend	412 mg	
Amylase	12,200 DU	*
Protease	66,500 HUT	*
Lipase	400 FCCLU	*
Cellulase	1320 CU	*
Invertase	0.4 IAU	*
Malt Diastase	500 DP*	*
Lactase	800 ALU	*
Lactobacillus acidophilus	10 mg	*
Bifidobacterium longum	3 mg	*
*Daily Value not established		

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

120 capsules per bottle. No fillers.

**Recommended Usage:** Take 2 or more capsules with every meal. Take 1 - 2 capsules with snacks. The dosage is dependent on both the types of foods eaten and the individual's digestive difficulties. If alcohol is consumed with the meal, then the dosage should be increased. (1 extra capsule is suggested with wine.)

### Indications:

- Most digestive disorders
- Dairy intolerance
- Gallbladder stress (see below)
- Prevention of malabsorption
- Intestinal toxemia
- Food allergies
- Indigestion
- Sugar intolerance

*Gallbladder stress may show itself with these indications:*

- Nausea following meal (anywhere from directly after to several hours later)
- Headache prior to or following meal
- Nausea that is relieved by eating or with a bowel movement
- Diarrhea following meals or thereafter
- Pain or tenderness in the upper abdomen

- Diarrhea or constipation
- Burps or belches
- Bloating
- A feeling of tenderness where the rib cage comes together

DIGESTZYME should be used for any of the symptoms mentioned above. Take 2-3 capsules with meals and, as needed, 1-3 capsules any other time. Symptoms should dissipate within fifteen to thirty minutes. Some people may require an additional 3 capsules of GASTROZYME for diarrhea or heartburn.

Individuals with extreme gallbladder or gastrointestinal problems may benefit from a regimen of GASTROZYME for one week, followed by a continuing program of DIGESTZYME along with GASTROZYME.

### Contraindications:

In cases of Gastritis (extreme case), Gastric Ulcers, or Duodenal Ulcers, use GASTROZYME with meals and/or as needed.

Although DIGESTZYME is available in a powdered form, the capsules can also be pulled apart and may then be used for children, pets, or in cases where a person is unable to swallow capsules. Powdered DigestZyme should be mixed with acceptable food in a teaspoon for a child or with baby formula in a spoon feeder for a baby. Do not add DIGESTZYME to a bottle of baby formula or to a bowl of food, since it will automatically digest the food in that container.

# Powdered DigestZyme

Powdered DigestZyme begins the process of food digestion in the stomach, reducing digestive stress on the pancreas.

**ASSISTS COMPLETE AND EFFICIENT FOOD DIGESTION!**

SUPPLEMENT FACTS		
Serving Size 1/4 tsp.	Servings per container 45	
Amount per 1/4 tsp.	% Daily Value	
Enzyme proprietary blend	506 mg	*
Protease	60,000 HUT	*
Amylase	20,000 DU	*
Lipase	400 FCC LU	*
Invertase	1.6 IAU	*
Malt Diastase	400 DP <sup>a</sup>	*
Lactase	600 ALU	*
Cellulase	200 CU	*
*Daily Value not established		

Other ingredients: maltodextrin, gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

45 1/4 tsp. doses per bottle. No fillers.

### Recommended Usage:

Babies and infants to 3 years old should take 1/8 tsp. mixed in a spoon of tepid water or in food.

Children and adults should take 1/4 tsp. on the tongue or mixed as above.

Do not add powdered DIGESTZYME to a bottle of baby formula or sprinkle it on a serving of food, since it will automatically digest the food in that container.

### Indications:

- Most digestive disorders
- Dairy intolerance
- Gallbladder stress (see below)
- Prevention of malabsorption
- Intestinal toxemia
- Food allergies
- Indigestion
- Sugar intolerance
- Colic

*Gallbladder stress may show itself with these indications:*

- Nausea following meal (anywhere from directly after to several hours later)
- Headache prior to or following meal

- Nausea that is relieved by eating or with a bowel movement
- Diarrhea following meals or thereafter
- Pain or tenderness in the upper abdomen
- Diarrhea or constipation
- Burps or belches
- Bloating
- A feeling of bloating or tenderness where the rib cage comes together

DIGESTZYME should be used for any of the symptoms mentioned above. Take the recommended dosage with meals and anytime as needed. Symptoms should dissipate within fifteen to thirty minutes. Some people may require an additional 3 capsules of GASTROZYME for diarrhea or heartburn.

Individuals with extreme gallbladder or gastrointestinal problems may benefit from a regimen of GASTROZYME for one week, followed by a continuing program of DIGESTZYME along with GASTROZYME.

### Contraindications:

In cases of Gastritis (extreme case), Gastric Ulcers, or Duodenal Ulcers, use GASTROZYME with meals and/or as needed.

DIGESTZYME is recognized as a maintenance formulation for those that have addressed their imbalances and now have a need to maintain that balance.

# ExcellZyme

ExcellZyme increases energy and supports the kidneys, liver, and hypothalamus.

## ONE OF THE BEST ANTIOXIDANT PRODUCTS AVAILABLE!

SUPPLEMENT FACTS		
Serving Size 2 Capsules		
Amount Per Serving		% Daily Value
Enzyme proprietary blend	78 mg	
Amylase	5,000 DU	*
Protease	7,200 HUT	*
Cellulase	400 CU	*
Lipase	24.2 LU	*
Gota Kola (herb)	300 mg	*
Rose Hips (fruit)	220 mg	*
Alfalfa Juice Conc.	150 mg	*
Ginseng (root)	150 mg	*
Gingko Biloba Leaf	50 mg	*
Gingko Biloba Leaf Extract	10 mg	*
Grape Seed Extract	40 mg	*

\*Daily Value not established

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

60 capsules per bottle. No fillers.

**Recommended Usage:** Take 2 capsules between meals three times a day as needed for energy or for balancing. ExcellZyme may also be taken with CALMZyme or PUREZyme to enhance the nervous or immune systems. For headaches/migraines, take 3 CalmZyme and 2 ExcellZyme together as needed.

ExcellZyme taken before bed may give an energy boost that would disturb sleep for the average person. People with chronic fatigue will be able to take an extra dose at bedtime along with 5 PureZyme in order to enhance the immune system.

### Indications (uses):

- Antioxidant
- Mental alertness
- Longevity
- Hypothalamus
- Liver support
- Enhance kidney
- Fatigue
- Headache/migraine
- Fainting spells
- Loss of memory
- Dizziness

### Component Benefits:

**Rose Hip** contains from ten to one hundred times more vitamin C than any other food, which is used by the body to fight bacterial infections and reduces the effects of some allergy-producing substances. Rose hip also contains vitamins A, E, B1, B2, K, Niacin, and the minerals calcium, phosphorus, and iron.

**Grape Seed Extract** is a more powerful proanthocyanadin than pine bark. The proanthocyanadins in Grape Seed Extract improve and normalize capillary activity by strengthening capillary walls. They restore flexibility to arterial walls by binding to collagen fibers, realigning them in the process to a

more youthful, undamaged structure. Thus, elasticity and strength are restored to all connective tissue.

The proanthocyanadins scavenge free radicals and inhibit decarboxylase in the anti-inflammatory process, thereby reducing inflammation. Inhibiting histamine decarboxylase also decreases the amount of histamine released in allergic reactions, thus reducing the severity of allergic responses.

According to "Advances in Nutritional Science," the benefits of proanthocyanadins include protection from aging, improved vision, reduced wrinkling of the skin, reduced risk of heart disease, enhanced immunity, subdued PMS, reduced inflammation in arthritis, improved circulation, resistance to bruising, improved flexibility, and reduced fatigue.

Teamed with the pure plant enzymes that deliver the nutrients listed above and the herbs listed below, these two ingredients in ExcellZyme constitute a complete nutritional food for the whole body.

**Gota Kola** works in a unique way to improve memory and to overcome brain fatigue. It is invaluable as a brain food and as an excellent natural neural tonic that slowly builds mental stamina and neural health. According to Asian and European practice, Gota Kola is an excellent blood purifier, glandular tonic, and diuretic. It is known in India as the longevity herb.

**Alfalfa** is one of the best sources of vitamin and mineral herbs. It is 34.9 percent calcium and has sufficient Vitamin D, phosphorus, and magnesium to make calcium usable in the body. High in natural iron, potassium, chlorine, sodium, and silicone, it is enhanced by vitamin E, A, B12, and even B6. Alfalfa is also the natural hormone for the pituitary gland.

**Siberian Ginseng** is the famous Asiatic tonic that has been shown in numerous studies to affect mental and physical behavior. In geriatric use, Ginseng has been proven beneficial for restoring mental abilities. Ginseng helps by directly affecting the adrenal-pituitary axis. This is most often manifested as an increased resistance to the effects of stress. The herb also aids mental function by improving circulation. Studies have demonstrated Ginseng's ability to assist learning.

**Gingko Biloba** has only been in use since 1988. Scientific research shows it to be another preventive medicine. It is able to work on the nerve centers, to increase brain circulation, and to generally reactivate the well-being of the body. Testing has shown Gingko to be a remarkable inhibitor of the lipid peroxidation of membranes (membrane penetration), and it is widely used in products to deliver oxygen to the brain via the blood system. Studies also show it to be a longevity aid. ExcellZyme contains both the leaf and the extract, making it one of the finest formulations available.

# GastroZyme

GastroZyme helps control Diarrhea, Heartburn, Colitis, Gastritis, Crohn's Disease, and Gastric or Duodenal ulcers.

## HELPS ALLEVIATE CONDITIONS ASSOCIATED WITH GASTROINTESTINAL DISTRESS!

SUPPLEMENT FACTS		
Serving Size 2 Capsules		
Amount Per Serving	% Daily Value	
Enzyme proprietary blend	130 mg	
Lipase	242 LU	*
Amylase	5,000 DU	*
Cellulase	800 CU	*
Marshmallow Root	190 mg	*
Papaya Leaf	190 mg	*
Prickly Ash Bark	110 mg	*
Gota Kola (herb)	95 mg	*
*Daily Value not established		

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

100 capsules per bottle. No fillers.

**Recommended Usage:** Take 2 - 3 capsules after a meal when DIGESTZYME has already been ingested at the beginning of that meal. When used without DigestZyme, take 3 - 4 capsules with every meal or snack. In the case of gastrointestinal tract discomfort, take 3 or more GastroZyme capsules anytime in place of antacids.

GastroZyme is a soothing product for people who have been diagnosed with and are suffering from active or bleeding ulcers. If you are one of these individuals, take 3 - 4 capsules of GastroZyme and the discomfort will diminish. Continue taking GastroZyme with your PUREZYME and DigestZyme with meals or anytime needed. With continued use, gastrointestinal discomfort should disappear.

### Indications:

- Gastric or Duodenal ulcer
- Gout
- Crohn's Disease
- Unexplained blood in urine
- Gastritis
- Heartburn
- Diarrhea
- Mucous congestion
- Diverticulosis
- Colitis

GASTROZYME was formulated for the person who is suffering from gastrointestinal distress. Those afflicted with indigestion caused by gastric or duodenal ulcer as well as those with a stressed gallbladder or liver will benefit from using this product. Those suffering from gout or heartburn have also found relief with the use of GastroZyme. Even chiropractors have been pleased with this product because of its ability to feed and fortify the muscle and bone, thereby assisting their patients in being able to "hold" their adjustments.

### Component Benefits:

The ingredients in GastroZyme provide the body with pure plant enzymes for optimum delivery along with nutrients specific to the gastrointestinal region.

**Marshmallow Root** has a high protein and mucilage-carbohydrate content that the body can use to manufacture the necessary materials for new tissue production. Marshmallow also has mucilaginous (adhesive) properties that enables it to surround and expel foreign and toxic matter. This has a soothing effect on the inflamed mucosal membrane tissue. Marshmallow has been found to relieve irritation and inflammation of the mucous membranes of the respiratory and gastrointestinal tracts and to help normalize mucous secretions. In conditions where inflammation is induced by the excess accumulation of uric acid, Marshmallow Root helps remove this acid from the body.

**Papaya Leaf** has been known for its wonderful digestive work and contains proteolytic enzymes (i.e., enzymes that act on proteins). Papaya Leaf has inherited a reputation as a "biological scalpel" because it selectively digests dead tissue without affecting the surrounding live tissue. It has been used to treat many skin diseases, wounds, and ulcers. Papaya Leaf has properties that protect the stomach from mucosadamage and from ulcer formation.

**Prickly Ash** is known for its support of the glands. It also aids with colic, ulcers, gastrointestinal distress, and the repair of tissues. Prickly Ash even fortifies the nervous system.

**Gota Kola** is known in India as a longevity herb. It is uncommonly rich in B vitamins and potassium and is also used as a natural diuretic.

# Hemo Drainage

Hemo Drainage assists Protease in improving blood flow and rheology, thus ridding the body of excessive proteins in the blood.

## SUPPORT FOR THE CIRCULATORY SYSTEM TO ELIMINATE METABOLIC WASTE!

SUPPLEMENT FACTS	
Serving Size 20 Drops	
Amount Per Serving	% Daily Value
Sarsaparilla ( <i>Smilax officinalis</i> )	- mg *
Yellow Dock ( <i>Rumex crispus</i> )	- mg *
Ginger Root ( <i>Zingiber officinale</i> )	- mg *
<i>Arctium lappa</i> (Burdock)	- mg *
* Daily Value not established	

Store tightly in a cool, dry place. Keep out of reach of children

1 Ounce per bottle.

**Recommended Usage:** Take 20 - 30 drops of extract in a small amount of water between meals 3 - 4 times daily along with PUREZYME or another Protease product. Store tightly sealed in a cool, dry location. Keep out of reach of children.

The primary function of the circulatory system is to service the diverse needs of the body's various tissues. This includes the transportation of nutrients to the interstitium for the cell, the removal of cellular waste debris, and the carrying of hormones from their site of production to their site of activation. In general, the circulatory system maintains a suitable environment in tissue fluids for the optimal survival and functioning of the cell. Alteration in blood content through an alteration in minerals, fats, and/or concentrations of cellular waste can easily change the overall viscosity of this ever-flowing river. Once the viscosity is altered, the resistance of the micro-circulation and the greater circulation may then become impaired, which may result in lower concentrations of oxygen being delivered to the cell, reduced nutrient uptake from the absorptive cells of the small intestine, and a depleted ability to remove waste products from the interstitium. This cascade of negative occurrences may ultimately result in diminished cellular metabolism, respiration, and reproduction.

HEMO DRAINAGE has been scientifically formulated to aid the body in the elimination of potentially congestive circulatory agents, thereby allowing the tissue to receive optimal nutrition while still maintaining an exceptional balance of waste removal. The overall effects of maintaining circulatory flow while limiting vessel restriction is widespread and encompassing.

### Indications:

- Poor blood circulation
- Congested blood rheology
- Inflammatory conditions
- Acidosis / Alkalosis
- Fatigue

### Component Benefits:

**Sarsaparilla (*Smilax officinalis*)** restores a wide range of metabolic functions by improving and vitalizing the circulation. Indications have also included scaling skin, psoriasis, and rheumatic conditions.

**Yellow Dock (*Rumex crispus*)** is a potent blood cleanser and purifier that also improves the flow of bile and intestinal peristalsis.

**Ginger Root (*Zingiber officinale*)** serves as a peripheral circulation stimulant and may also be helpful with cramps, digestive problems, and sore throats.

***Arctium lappa* (Burdock)** cleans the blood and stimulates digestion by supporting the liver and the gallbladder.

# Kidney Drainage

Kidney Drainage assists protease in eliminating excessive waste from the kidneys.

## SUPPORT FOR YOUR KIDNEYS TO ELIMINATE METABOLIC WASTE!

SUPPLEMENT FACTS		
Serving Size 20 Drops		
Amount Per Serving		% Daily Value
Asparagus cochinchinensis	- mg	*
Goldenrod (Solidago canadensis)	- mg	*
Buchu (Barosma betulina)	- mg	*
Juniperus communis	- mg	*
Glycerine	- mg	*
*Daily Value not established		

Store tightly in a cool, dry place. Keep out of reach of children

1 Ounce per bottle.

**Recommended Usage:** Take 20 - 30 drops of extract in a small amount of water between meals 3 - 4 times daily. Store tightly sealed in a cool, dry location. Keep out of reach of children.

Many factors can adversely affect kidney function, including nutrition intake, fluid intake, hormone production, and stress. Once these vital organs lose a portion of their filtration and purification ability, toxic substances that can easily poison the body will build up very quickly. Therefore, KIDNEY DRAINAGE has been created with the sole intent of helping the kidneys perform their normal daily function - the filtration of waste from the blood. The removal of toxic metals, the processing of xenobiotics, and even the maintenance of internal pH all depend upon the health and longevity of these two organs. Because of the constant, daily stress that is placed on these organs, optimal nutritional support is crucially essential for the best possible care of these structures.

### Indications:

- A need for detoxification
- Infections
- Frequent colds or flu
- Edema
- Following trauma
- Lymphatic swelling
- Lymphatic congestion

The main function of the kidneys is to maintain a level of consistency between fluids and the entire internal environment. In this sense, the kidneys have often been compared to a water filtration and purification plant that takes waste out of water, thus turning it into drinkable fluid. The kidneys are almost always taken for granted until they malfunction, which would cause a build-up of metabolic waste that can quickly

poison all of the surrounding tissue. Each and every day, the kidneys filter nearly 200 liters of fluid from the bloodstream, thus allowing toxins, metabolic wastes, and excess ions to be excreted while simultaneously reabsorbing crucially needed metabolic by-products. These two bean-shaped structures also regulate the volume and chemical composition of the blood by helping maintain osmolarity and acid-alkaline integrity. Additionally, the kidney may also perform acts of glucose anabolism (rivaling that of the liver), hormone production, and even enzyme synthesis.

### Component Benefits:

Kidney Drainage is a certified organic, concentrated, rapidly-assimilated herbal product that assists the kidneys to eliminate metabolic waste. This product was scientifically formulated to aid in the balance of the biological terrain: the underlying cause of all biochemical imbalances

**Asparagus Officinalis** increases the rate of cellular activity, thereby increasing the rate of urine production.

**Goldenrod (Solidago Viraurea)** has been shown to be effective for nephritis and is especially helpful for clearing up dark and cloudy urine.

**Juniperus communis** is an excellent diuretic with anti-microbial properties

**Buchu (Barosma Betulina)** is a diuretic and urinary antiseptic that is helpful in genito-urinary system infections.

# Lymphatic Drainage

Lymphatic Drainage assists protease in eliminating waste from the lymphatic system.

## SUPPORT FOR YOUR LYMPHATIC SYSTEM TO ELIMINATE METABOLIC WASTE!

SUPPLEMENT FACTS		
Serving Size 20 Drops		
Amount Per Serving	% Daily Value	
Red Root ( <i>Ceanothus Americanus</i> )	- mg	
<i>Trifolium pratense</i> (Red Clover)	- mg	*
<i>Stillingia</i> root ( <i>Stillingia sylvatica</i> )	- mg	*
Prickly Ash Bark ( <i>Xanthoxylum clava-herculis</i> )	- mg	*
Glycerine	- mg	*
*Daily Value not established		

Store tightly in a cool, dry place. Keep out of reach of children

1 Ounce per bottle.

**Recommended Usage:** Take 20 - 30 drops of extract in a small amount of water between meals 3 - 4 times daily. Store tightly sealed in a cool, dry location. Keep out of reach of children.

**Indications:**

- A need for detoxification
- Infections
- Frequent colds or flu
- Edema
- Following trauma
- Lymphatic swelling
- Lymphatic congestion

The lymphatic system is comprised of a myriad delicate vessels that are dispersed throughout both the superficial and the deep tissues, a number of highly specialized glands, and even a small intestinal presence in the form of the central lacteal or chyliferous. They are appropriately named both for their characteristic colors and for their absorption functionality. The lymphatic vessels are found in almost every single tissue and system of the body that contains blood vessels. They perform a wide array of essential functions, including the transportation of nutrients from the small intestine into interstitial space, the removal of waste products from cellular metabolism into the blood, and the phagocytosis of infectious microorganisms. Because of this vast array of functionality, the lymphatic system is (and must be) considered a foundational aspect for the maintenance of optimal health. Without a fully functioning lymphatic system, our cardiovascular system would completely shut down and our immune system would be hopelessly damaged. All transportation throughout this network is not catalyzed by a continuous pump like the heart, but rather relies on the milking action of the active skeletal musculature, the pressure changes that occur during

diaphragmatic breathing, and the pulsations that occur as a result of arterial circulation. Because of the vast array of materials that are transported and phagocitized by this unpressurized circulating system, congestion of this system is very likely and is potentially very dangerous, as well.

**Component Benefits:**

Lymphatic Drainage is a certified organic, concentrated, rapidly-assimilated herbal product that assists the kidneys to eliminate metabolic waste. This product was scientifically formulated to aid in the balance of the biological terrain: the underlying cause of all biochemical imbalances

**Trifolium pratense (Red Clover)** is an expectorant and antispasmodic that clears stagnation in the lymphatics and also relieves eczema, psoriasis, and respiratory congestion.

**Stillingia Root** primarily affects the lymphatic system and the excretory systems, thereby increasing drainage and limiting stagnation.

**Prickly Ash Bark (Xanthoxylum clava-herculis)** stimulates the circulatory and the lymphatic systems and is especially effective on mucous membranes.

**Red Root (Ceanorthus)** stimulates lymph and inter-tissue fluid circulation, thereby decreasing stagnation and improving tissue drainage.

# LypoZyme

LypoZyme contains more Lipase than any other Transformation enzyme formulation.

## LYPOZYME - FOR THE HEALTH OF YOUR CARDIOVASCULAR SYSTEM AND FOR CONTROLLING OBESITY!

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Enzyme proprietary blend	208 mg	
Lipase	2,500 LU	*
Amylase	5,000 DU	*
Protease	20,000 HUT	*
*Daily Value not established		

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

60 capsules per bottle. No fillers.

### Recommended Usage:

**Digestion:** Take one capsule with every meal. Clinical data shows that taking LYPOZYME with meals in combination with DIGESTZYME not only improves digestion, but also increases the body's ability to utilize important fatty acids and improves the HDL ratio in the blood.

**Cholesterol:** 1 or more capsules with each meal for the reduction of cholesterol.

**Obesity:** 3 capsules of BALANCEZYME PLUS 1/2 hour before each meal and then 3 capsules of LypoZyme with meals.

### Indications (uses):

- Lowers cholesterol
- Provides feeling of satiety
- Improves fat digestion
- Reduces fat
- Lowers triglycerides
- Balances fatty acids

LYPOZYME was formulated to assist the person who has concerns that may range from heart problems and high blood pressure to plaque buildup in the arteries, obesity, and indigestion. LypoZyme aids in the proper digestions of fats, carbohydrates, and proteins. This formulation contains the highest amount of lipase found in any TransFormation product.

Combining LypoZyme and BalanceZyme Plus with proper nutritional concerns and adequate exercise will assist with weight control.

Research has shown that many people over the age of 45 are either diabetic or borderline diabetic. LypoZyme that is used together with BalanceZyme Plus will act as a preventative for anyone prone to developing diabetes.

### In answer to obesity concerns:

The government defines obesity as being 20 pounds over a person's recommended weight. Research has shown that people who are obese are low in the enzyme lipase. The high amount of lipase in our LypoZyme formulation provides the body with a feeling of satiety which further controls appetite, lowers cholesterol levels, lowers triglyceride levels, and serves in the balancing of fatty acids in the system.

# MasterZyme

MasterZyme strengthens the immune system and controls hormonal imbalances by supporting organs such as the liver and pancreas together with glands such as the pituitary and thyroid.

## SUPPLEMENTAL SUPPORT FOR THE ENDOCRINE SYSTEM!

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Enzyme proprietary blend	36 mg	*
Amylase	1,800 DU	*
Protease	8,000 HUT	*
Cellulase	100 CU	*
Lipase	10 FCC LU	*
Rose Hips (fruit)	104 mg	*
Thyroid Conc.	60 mg	*
Suprarenal Cortex Conc.	30 mg	*
Anterior Pituitary Conc.	30 mg	*
Black Cohosh (root)	30 mg	*
Irish Moss Algae	30 mg	*
Parsley Leaves	25 mg	*
Gonad Substances (ovarian, orchic, prostate)	15 mg	*
Suprarenal Substance	10 mg	*

\*Daily Value not established

Other ingredients: gelatin, water.

Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

100 capsules per bottle. No fillers.

**Recommended Usage:** Take 1 - 2 capsules three times a day. MasterZyme may be taken after meals. It may also be taken anytime for sugar cravings.

### Indications:

- Endocrine system weakness
- Hypoglycemia
- Thyroid disorder
- Fatigue
- Obesity
- PMS
- Hormonal imbalances
- Trace mineral deficiency
- Immune system weakness
- Hypothyroidism
- Goiter (after removal)

MASTERZYME is one of the few Transformation formulations containing animal products from beef. This is a glandular formulation that has been used very successfully to support the endocrine system. ULTRAZYME may be used in place of MasterZyme for vegetarians.

The endocrine system is made up of glands that regulate body activity through special secretions of hormones that are

delivered directly into the blood. Each of the glands has one or more specific functions, but all are dependent upon other glands for the maintenance of a normal hormonal balance within the body.

### Component Benefits:

MasterZyme's ingredients include pure plant enzymes, herbs, and glandulars that are specific to the endocrine system. Again, this is the only Transformation formulation containing an animal product.

The reason for this addition of animal glandulars is based on a consideration of glandular and cellular therapy. Glandular therapy is the use of glandular and/or organ-related substances to bolster the function of one's own organs and/or glands. These cellular factors are organ-specific but not species-specific. This means that the raw cellular material of a bovine liver, when ingested, will be picked up by the bloodstream and delivered to the human liver. Research supports this theory and shows how glandular concentrates produce active factors that are undisturbed by digestion.

It seems safe to say that our total health is the sum of the health of our individual organs and glands. When we are ill, it is because our organs and glands cannot function at ideal levels either individually or collectively.

Diet has an influence on the health of our glands and organs and directly interacts with our genetics. Good nutrition can help the glandular function by assuring that they obtain their highest genetic potential. However, when nutrition is not adequate, organs and glands cannot receive the specific nutrients that they require. MasterZyme was formulated to bridge this nutritional gap.

# Plantadophilus®

Plantadophilus® controls the pH balance in the intestinal tract, thus preventing the growth of harmful bacteria in the intestine.

**OVER TWO BILLION UNITS OF LACTOBACILLUS PLANTARUM!**

SUPPLEMENT FACTS	
Serving Size 2 Capsule	
Amount Per Serving	% Daily Value
Lactobacillus plantarum	4 billion org. *
*Daily Value not established	

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

Each capsule possesses a culture count of over two billion colony-forming units of *Lactobacillus Plantarum* from a pure plant nutrient base.

Plantadophilus® doubles its population in less than five minutes, making it stronger than any Acidophilus product on the market. *L. Plantarum* is more stable and multiplies faster than *L. Salvarus* and other bacterium.

90 capsules per bottle. No fillers.

**Recommended Usage:** Take 2 capsules before bed and 1 capsule first thing in the morning. For convenience, you may take all three capsules at bedtime. Dosage may be increased as needed. Plantadophilus® should be refrigerated for optimum benefit.

**Indications:**

- Food allergies
- Diarrhea
- Constipation
- Fungus
- Herpes
- Chronic Fatigue Syndrome
- EBV
- Cold / Flu
- Virus
- Maintains colon's pH
- Digestive aid
- Natural antibiotic

The benefits of *L. Acidophilus* and Bifidobacterium are well known. They aid the balance of good bacteria in the large intestine. Transformation has now released the product *Lactobacillus Plantarum* under the name Plantadophilus®.

The oxygen-generated lactobacillus in the Transformation product produces lactic acid as a main product from carbohydrates. Lactic acid creates a more acidic environment, thus inhibiting the less desirable micro-organisms. Lactic acid and other organic acids control the pH balance of the colon .

Thus, highly favorable natural chemicals in the colon are actually created through the lactic acid fermentation process. Lactic acid lowers the pH of the intestinal tract's contents and prevents the growth of harmful bacteria in the intestines. The

presence of lactic acid at low (but constant) levels on the inner surface of the intestinal tract helps restore the normal balance of intestinal flora.

The by-products of fermentation include natural antibiotics (such as acidiphilin) and they also include very important digestive enzymes. This helps the on-going production of B vitamins and digestive enzymes and ensures the proper digestion and absorption of nutrients.

Because digestive enzymes play an extremely important role in the digestion of otherwise incompletely-digested proteins and other food substances, these beneficial bacteria are an important part of the detoxification of the body. The organism *L. Plantarum* is believed to be especially productive of proteolytic enzymes (enzymes that act on protein and clear protein wastes from the system).

This means that viable organisms survive the digestive process and produce an acid environment through glucose fermentation. That acid environment inhibits the putrid matter that is otherwise normally present in the intestines and the toxic chemicals that make up intestinal putrefaction, such as phenol and skatole. For the most part, these escape the detoxification action of the liver. Having bypassed the liver, these toxins enter into general circulation where they can produce pathological changes in tissues, aggravate existing conditions of weakness, and put unnecessary stress on the immune system before being excreted by the kidneys. These toxins are small proteins that are easily absorbed into the bloodstream. However, *L. Plantarum* is able to act on these protein toxins while they are still in the intestinal tract, thus removing a major burden from the organs and allowing the organs to complete their natural functions with much greater efficiency.

ntestinal toxicity creates a weakened immune system. Both pockets and folds in the intestinal tract can be filled with toxic matter, thereby causing inflammation, infection, and discomfort. Accumulation of those toxins is common in colon diverticula and is responsible for diverticulosis and for many other serious complications.

Due to the micro-organism's ability to gain entry into the diverticular pocket, the presence of *L. Plantarum* may prove to be an effective treatment for toxemia that is caused by this condition.

Lactobacilli possess nutritive value. They promote the production of B vitamins in the intestine and assist the production of the enzymes that partially hydrolyze proteins, fat, and lactose and that increase the digestibility of like products.

Physicians have used *L. Plantarum* with successful results. According to the National Cancer Institute, lactic acid balance and lysine support are believed to lower the risk of cancer, since the lactobacilli sequester cancer-causing agents before they can be absorbed by the body. Research done at the University of Nebraska shows that *L. Plantarum* synthesizes a large amount of Lysine. The balance between Lysine and Arginine is critical for a healthy immune system. When Arginine is high, then fungal forms, allergies, and viruses are not kept under control. Conversely, when Lysine is high, then the immune system is able to control herpes and other invaders. Fortunately, *L. Plantarum* helps maintain the proper balance between Lysine and Arginine.

For anyone suffering from malnutrition, spastic colon, stressed gall bladder, stressed liver, toxic bodies, and other maladies that are common in today's society, this natural antibiotic may be the answer. Until the body's imbalance is taken care of, the possibility of being truly healthy is greatly inhibited, if not impossible!

It is important to reiterate that Transformation, Inc. includes no dairy products in our enzyme supplements. Some confusion with the name "Lactobacillus" is understandable. However, by definition, this is a genus of bacteria. *Lactobacillus Planarum* is definitely a pure plant source.

**PLANTADOPHILIS SHOULD BE  
REFRIGERATED FOR OPTIMUM BENEFIT.**

# ProstateZyme

ProstateZyme has been developed to support the prostate, providing both energy and stamina while fortifying the endocrine system.

**PROSTATEZYME CONTAINS ONLY PURE PLANT PRODUCTS!**

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving	% Daily Value	
Zinc (as zinc citrate)	3 mg	20%
Enzyme proprietary blend	38 mg	*
Amylase	2,500 DU	*
Bromelain	300,000 PU	*
Protease 4.5	4,000 HUT	*
Phytase	5 FTU	*
Cellulase	100 CU	*
Lipase AN	10 FCCLU	*
Saw Palmetto Extract	40 mg	*
Ho-Shou-Wu (FO-TI) (root)	30 mg	*
Gingko biloba (leaf) extract	25 mg	*
Siberian Ginseng (root) extract	20 mg	*
Licorice (root)	20 mg	*
Pygeum (bark) extract	20 mg	*
Flaxseed	20 mg	*
* Daily Value not established		

Other ingredients: Vegetarian Capsule (cellulose & water)

Enzyme activity is measured in Food Chemical Codex (FCC) units. Store tightly in a cool, dry place. Keep out of reach of children

100 capsules per bottle. No fillers.

**Recommended Usage:** Take 1 - 2 capsules three times per day with meals.

**Indications:**

- Prostatitis
- Benign prostatic hyperplasia
- Stress response modulation
- Inflammation control
- Seminal vesicle support
- Male reproduction disorders
- Calming
- Fatigue
- Lack of stamina
- Impotence
- Kidney imbalance
- Infertility

ProstateZyme is an enzyme-based herbal formulation designed to support the prostate gland, enhance male reproductive system function, modulate side effects of stress hormones, and control inflammatory processes. It may also be used by women to control menstrual and menopausal disorders. It includes highly purified and active enzymes and herbal extracts to enhance the delivery and to optimize the benefits of the active ingredients.

For optimum and timely benefits, ProstateZyme should be taken along with MASTERZYME and/or SUPER HORMONEZYME. As with all TEC products, it is recommended that one maintain an effective digestive system through the regular intake of digestive

enzymes with meals, probiotics at bedtime, and protease between meals to maximize the supply of nutrients via the blood.

**Component Benefits:**

**Saw Palmetto** has historically been used to support the functionality of the testicles, to support the prostate in men, and to improve the mammary glands in females. Recent studies have shown that saw palmetto can help control BPH (benign prostate hyperplasia) and frequent urination due to prostate disorders. Other applications include the control of androgens in females, which prevents hirsutism and polycystic ovarian disorders. Saw palmetto is thought to impart these benefits through the inhibition of the intraprostatic transformation of testosterone into dihydrotestosterone, which becomes responsible for prostate enlargement. Another mechanism of saw palmetto's action includes an antiestrogenic effect, which is beneficial, since estrogen has been shown to contribute to BPH. Therefore, saw palmetto promotes the overall health of the reproductive system.

**Ho-Shou-Wu (FO-TI)** has been known for improving energy levels and as a rejuvenator for sexuality and youthfulness. It is also used to improve cardiac function, control cholesterol levels, and control hypertension.

**Gingko biloba (leaf) extract** has only been in use since 1988. Scientific research shows it to be another preventive medicine. It is able to work on the nerve centers, to increase brain circulation, and to generally reactivate the well-being of the body. Testing has shown Gingko to be a remarkable inhibitor of the lipid peroxidation of membranes (membrane penetration), and it is widely used in products to deliver oxygen to the brain via the blood system. Studies also show it to be a longevity aid.

**Siberian Ginseng** has many uses and is in this formulation because of its positive effects on the nervous system. It protects the nervous system from stress, thereby promoting physical and mental efficiency. It also helps impart sound metabolic function, balanced blood pressure, and stabilized glucose levels. It also helps provide energy (especially in the case of chronic fatigue), support the kidney, and control atherosclerosis. In short, Ginseng does it all. Siberian Ginseng has also been known to increase gastrointestinal movement and tone and to increase iron metabolism.

**Licorice** is included in the formulation in order to help control any inflammation of the prostate and the other organs. Additionally, since it modulates estrogen action, it consequentially improves symptoms of PMS, such as depression, sugar cravings, water retention, and breast tenderness. Although licorice acts as cortisol in controlling inflammation, it also minimizes the side effects of excess cortisol. Other benefits of licorice include support of the liver, soothing of GI tract ulcers, and alleviation of skin disorders, cancer sores, and other viral-induced disorders.

**Pygeum** (africanum) is rich in several terpenes and ferulic acid esters. It has been used to support the prostate and to improve male fertility and virility. In some studies, pygeum appears to be more effective than saw palmetto in controlling prostate problems. However, pygeum and saw palmetto work together to provide synergistic benefits to the reproductive organs.

**Flaxseed** contains several lignans together with essential fatty acids. It has been shown to have anti-cancer benefits. In addition, its anti-inflammatory action serves to control prostate problems, to lower cholesterol, and to prevent platelet aggregation.

# PureZyme

PureZyme breaks down protein invaders in the blood supply, leaving them vulnerable to destruction by the immune system.

## AN ALL-NATURAL BLOOD ENHANCER!

SUPPLEMENT FACTS		
Serving Size 2 Capsules		
Amount Per Serving		% Daily Value
Calcium (as calcium citrate)	18.2 mg	*
Protease	370,000 HUT	*
*Daily Value not established		

Other ingredients: Vegetarian Capsule (cellulose & water)  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

120 capsules per bottle. No fillers.

**Recommended Usage:** Take at least 2 capsules first thing in the morning and also right before bed. The recommended usage provides you with 740,000 units of activity.

This formulation will optimize the amount of protease that is absorbed into the bloodstream, allowing it to break down the protein invaders that are not a part of the natural body. The results of PUREZYME can be seen in the blood within ten minutes after its ingestion. This happens regardless of whether or not there was any food in the stomach.

For those with poor protein digestion, PUREZYME may also be taken with DIGESTZYME at meals where animal protein is eaten. Although DIGESTZYME itself contains a large amount of protease, if protein digestive problems are present and if red meat remains in the diet, then taking 1 PUREZYME capsule with 2 DIGESTZYME capsules may be a safeguard so that protein will do no further harm to the body.

Note that PUREZYME also helps a variety of other symptoms and conditions. For example, it is good for chronic constipation. PUREZYME is also excellent when taken with EXCELLZYME and/or CALMZYME to enhance the nervous system or immune system. Individuals with PMS or menopausal symptoms should increase their protease during menses. A convenient way to do this is to take 3 capsules of PUREZYME with 3 capsules of MASTERZYME or ULTRAZYME three times per day.

### Indications:

- Hypoglycemia
- Hepatitis
- Fungal infestation
- Parasites
- Liver
- Diuretic
- Anxiety syndromes
- Virus
- Inflammatory conditions of the ear, nose, throat, mouth, sinus, and/or gums.
- Skin eruptions
- Osteoporosis
- Acute inflammation
- Kidney
- Abscess
- Infections
- Bacteria

### Component Benefits:

Protease indirectly supports the immune system. This happens because protease is able to dissolve almost all proteins if they are not components of living cells. Normal living cells are protected against lysis by the inhibitor mechanism. However, remember that parasites, fungal forms, and bacteria are themselves all proteins. Even viruses are cell parasites consisting of nucleic acids covered by a protein film. Enzymes break down undigested protein, cellular debris, and toxins in the blood, thus sparing the immune system this task. The immune system can then concentrate its full action on the bacterial and/or parasitic invasion.

The PUREZYME formulation is based on the needs of the individual's biochemical body type instead of the individual's size or weight. Children, for example, may safely take PUREZYME. If necessary, the capsule can even be removed, and then the powder mixed with liquid for easier ingestion.

Protease is a polymorphic enzyme. The enzyme action it produces can adapt to meet the current digestive or metabolic needs of the body.

### Contraindications:

If at anytime you feel burning sensations, take 3 capsules of GASTROZYME. The burning will dissipate shortly. For support, continue to take GASTROZYME with PureZyme or DigestZyme with meals and when needed.

# ReleaseZyme

ReleaseZyme contains all of the nutrients required to remove waste from the body along with pure plant enzymes that allow these nutrients to do their job.

## THE NATURAL WAY TO REGULARITY!

SUPPLEMENT FACTS		
Serving Size 2 Capsules		
Amount Per Serving		% Daily Value
Enzyme proprietary blend	116 mg	
Amylase	5,000 DU	*
Lipase	144 FCCLU	*
Cellulase	800 CU	*
Protease	6,000 HUT	
Cascara Sagrada Bark	300 mg	*
Psyllium Seed Husk	167 mg	*
Ginger Root	60 mg	*
Fennel Seed	60 mg	*
Burdock Root	20 mg	*
Senna Leaf	20 mg	*
Goldenseal Root	20 mg	*

\*Daily Value not established

Other ingredients: gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

100 capsules per bottle. No fillers.

**Recommended Usage:** Take 1 - 2 capsules between meals and/or 3 - 4 capsules before bed.

### Indications:

- Constipation
- Parasites
- Colds
- Obesity
- Toxicity
- Fatigue
- Allergies
- Liver

The expression "constipation" is derived from the Latin word "constipatus," whose translation means to press, to crowd together, to pack, or to cram. Consequently, to be constipated means that the packed feces in the bowel has accumulated, making it difficult to evacuate. Constipation is the primary affliction underlying every ailment. Two bowel movements per day represents a healthy digestive system functioning properly.

Good digestion begins when we ingest our food and finishes when it is flushed through the digestive system. DigestZyme, taken with meals, will help prevent digestive complications. ReleaseZyme was formulated to reduce the discomfort of constipation. Simply defined, you are constipated if you have less than two bowel movements per day.

Bowel toxicity is brought on by poorly digested foods that can only ferment, putrefy, and turn rancid in the colon. This leads to a constant assault on the immune system. Unable to function properly, the large intestine puts an added burden on the kidneys, lungs, liver, and skin.

### Component Benefits:

**Cascara Sagrada** is one of the most valuable remedies for chronic constipation. Although it stimulates the whole digestive system, Cascara Sagrada is one of the most gentle, effective, and non-habit forming laxatives available. Cascara contains the mildest action of all the A-factors, which produce a soft or formed stool in about six to eight hours with little or no gripping. The 1977 Formulary Service of the American Society of Hospital Pharmacists, Inc. emphasizes the mild action of Cascara and remarks that the herb does not lose its efficiency even with repeated use. Although increased dosages often become necessary with prolonged use of other cathartics, Cascara does not possess this negative property. Cascara can therefore correct habitual constipation by restoring intestinal tonus.

**Psyllium** will assist easy evacuation by increasing water content in the colon, thus causing softer stools. It relieves irritation during hemorrhoids, colitis, and ulcers.

**Ginger Root** plays an important role in this formulation because it restores muscle tone and reflex faculty to the gastrointestinal tract. Using a proper softener is important, but one should make sure that it also revitalizes sick and flaccid muscles and glands. Ginger Root is used for every kind of stomach discomfort - from nausea to indigestion and from simple stomach-ache to ulcers.

**Fennel Seed** has been used as a dietary aid since the first century. Fennel is very important in the gastrointestinal tract in order to maintain its tone and stasis and to sterilize, stimulate, and suppress any flatulence caused by dietary changes. Fennel is used for treating gas, stomach acid, colic, and cramps.

**Burdock Root** is a classic blood purifier and diuretic. It helps the body cleanse itself of toxins and wastes, especially those that accumulate during illness. Burdock also has a restorative effect on the liver and gallbladder. Even antibiotic and antifungal principles have been discovered in Burdock Root.

**Senna Leaf** is added to this formulation because of its laxative properties that help cleanse the lymphatic system. When urine is scant, as in a prostate situation, the lymphatic system can be purged so that the fluid which cannot be expelled through the kidneys can still be eliminated through the bowel. Senna also removes impurities from throughout the whole body.

**Golden Seal** is specific for mucous membrane problems. It is used in this formulation both because of its ability to stop intestinal swelling and also because of its antibiotic properties. It helps kill the germs that live in waste being removed.

# RepairZyme

RepairZyme aids the development of good muscular, skeletal, and tissue health.

**FACILITATES REPAIR OF STRESSED AND DAMAGED MUSCLE AND TISSUE!**

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving		% Daily Value
Enzyme proprietary blend	30 mg	
Lipase	56 FCCLU	*
Cellulase	280 CU	*
Amylase	560 DU	*
Protease	1,740 HUT	*
Broccoli (flowering head)	95 mg	*
Carrot	95 mg	*
Spinach Leaf	95 mg	*
Grape Seed Extract	50 mg	*
Yucca (herb)	55 mg	*
Butcher's Broom (herb)	36 mg	*
Rose Hips (fruit)	36 mg	*
Proprietary Mineral Blend (Kelp, Calcium ascorbate, Magnesium citrate, Zinc gluconate, Manganese gluconate)	55 mg	*
*Daily Value not established		

Other ingredients: gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

45 capsules per bottle. No fillers.

**Recommended Usage:** Take 1 or more capsules per day as needed.

RepairZyme is formulated for anyone desiring good muscular, skeletal, and tissue health. Old sports-related or athletic injuries are sure to benefit from the phyto-chemicals and rebuilding nutrients contained in this product. Athletes who require support after exercise sessions will find this formula advantageous to their good health.

### Component Benefits:

**Grape Seed Extract** is one of the most powerful antioxidants used to eliminate free radicals from the body. It has been used to counteract the effects of aging and is a complete plant product. Grape Seed Extract was included in this formulation to act as a scavenger in order to carry off toxic wastes and for the beneficial nutrient combinations for repair of tissue. It restores flexibility to arterial walls and restores connective tissues. It is also known as a "proanthocynidin" (a free radical neutralizer).

**Yucca** emulsifies toxins and accelerates the breakdown of organic wastes such as uric acid. Research indicates its potential for usefulness in the treatment of arthritis due to its anti-inflammatory abilities.

**Butchers Broom** is known for its ability to benefit circulatory problems such as hemorrhoids and varicose veins. Its ability to carry toxins from the body also makes Butchers Broom a valuable herb in this formulation, since it is thus able to assist in making repairs to the system.

**Rose Hips** contain many nutrients, including ten to one-hundred times more vitamin C than any other food. Vitamin C is used by the body to fight infections and to reduce the effects of some allergy-producing substances. Rose hips also enhance the benefits of grape seed and its proanthocyanidin effects.

**Broccoli, Carrot, and Spinach** are considered to be parts of the plant family that is listed as "phyto-chemicals or phyto-nutrients." Many articles have been written on this subject. In fact, Newsweek once gave it the front page because it is believed that they will prevent cancer with their healing nutrients. These three plant foods are rich with essential nutrients for systemic repair because of their synergy when combined with herbs. They are a rich anti-oxidant and they increase energy at the cellular level.

# SportsZyme

SportsZyme provides a stable energy source to assist in exercise and competition.

## THE ENERGY YOU NEED TO COMPETE!

SUPPLEMENT FACTS		
Serving Size 2 Capsules		
Amount Per Serving	% Daily Value	
Vitamin C (as calcium ascorbate)	1.8 mg	2%
Manganese (manganese gluconate)	.05 mg	2%
Protease	42,000 HUT	*
Yerba Mate Leaf	537 mg	*
Sida Cordifolia Herb	140 mg	*
Creatine Phosphate	110 mg	*
L-Glutamic Acid	56 mg	*
CoQ10	20 mg	*
Proprietary Mineral Blend (Lipase, Cellulase, Amylase, Kelp, Calcium Ascorbate, Magnesium Citrate, Zinc Gluconate, Manganese Gluconate)	56 mg	*
*Daily Value not established		

Other ingredients: gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

60 capsules per bottle. No fillers.

**Recommended Usage:** Take 2 - 3 capsules prior to physical activity or exercise. The best results occur when they are taken with fruit juice or vegetable juice.

Physical activity in the form of muscular work or exercise demands large quantities of immediate energy. Adenosine triphosphate is the common energy source used for all biological work done within cells. The energy that is gained following the breakdown of ATP to adenosine diphosphate (ADP) and inorganic phosphate (Pi) is used for skeletal muscle contraction during exercise. In addition to ATP, skeletal muscle has another high-energy phosphate called creatin phosphate (CP) that can be used for the resynthesis of ATP. Formulated for athletic or sports-minded people, SportsZyme provides a stable source of energy during exercise or competition.

### Component Benefits:

**Yerba mate leaf** is an herb containing high quantities of nutrients. In fact, a group of investigators from the Pasteur Institute and the Paris Scientific Society concluded that Yerba mate contains practically all of the vitamins necessary for sustaining life. It is difficult to find a plant in any area of the world that is equal to Yerba mate in nutritional value. Additional clinical studies that have been done in France, Germany, Argentina, and other countries conclude that Yerba mate leaf may actually be the most powerful rejuvenator known to man. Yerba mate rejuvenates the body and increases mental awareness through its wealth of nutrients. Unlike other rejuvenators (such as caffeine), Yerba mate does not cause side effects (such as nervousness and jitters).

**Sida cordifolia** is an ancient thermogenic herb from India. It is only now being discovered by Americans who are concerned with weight control. This herb will cause a slight increase in body temperature so that your body must burn more calories in order to maintain the increase.

**Creatine phosphate** serves as a reservoir of high-energy phosphate bonds in muscle and nerve tissues. This helps to maintain the ATP levels during muscular activity, which otherwise quickly depletes the ATP. Therefore, increased creatine phosphate levels should theoretically delay fatigue in repetitive, exhaustive, short-term exercise. Creatine phosphate is considered the high-energy phosphate "reservoir" that is used for the resynthesis of ATP, providing the most rapidly available source of ATP for muscular contraction.

**CoEnzymeQ10** is the enzyme that is necessary for the mitochondria to work. It is present in the mitochondria's electron transport system. This co-enzyme also participates in the Krebs cycle that is known as succinate dehydrogenase-co-Q-10 reductase. Cells do not use nutrients that are consumed in the diet for an *immediate* supply of energy. Rather, they prepare an energy-rich compound called ATP (the fuel that is used for all the energy-requiring processes within the cell). CoQ10 is an enzyme that helps change nutrients into ATP. CoQ10 deficiency can result in both premature aging and obesity.

**Glutamine** is necessary for the the health of connective tissue and for musculoskeletal healing. Much recent study has shown that glutamine is exceptionally important to metabolism. Dr. Douglas Wilmore of Harvard Medical School says that glutamine is a key to metabolism and also to the maintenance of muscle. In addition, it is essential for DNA synthesis, cell growth, and cell repair. It is also a primary energy source for the immune system. Dr. Alan Gaby reported in the Townsend Letter for Doctors that glutamine can reduce allergic reactions. It also promotes mental alertness and gives a lift to those who are tired or depressed. The American Journal of Clinical Nutrition found that glutamine is an effective way to raise hormone levels. During times of stress, muscles discharge glutamine into the bloodstream. The older you get, the more of an effect stress has on your body, resulting in more depleted levels of glutamine in your muscles. Energy and nucleic acid metabolism in immune cells also depends on an adequate supply of glutamine. Not surprisingly, research indicates that trained athletes have less stored glutamine in their body.

**Protease** will assist in the delivery of nutrients and will be a beneficial assistant in the blood.

# Super CellZyme

Super CellZyme contains all 45 of the vitamins and minerals that are required to feed the cells together with the enzymes that are needed to allow those nutrients to do their job.

**PURE PLANT PRODUCT - ALL NATURAL WHOLE FOOD SUPPLEMENT!**

SUPPLEMENT FACTS	
Serving Size 3 Capsules	
Amount Per Serving	% Daily Value
Enzyme proprietary blend	128 mg *
Lipase	135 LU *
Cellulase	1,050 CU *

\*Daily Value not established

Other ingredients: Vegetarian Capsule (cellulose & water)  
 Enzyme activity is measured in Food Chemical Codex (FCC) units.  
 Store tightly in a cool, dry place. Keep out of reach of children

90 capsules per bottle. No fillers.

**Recommended Usage:** Take 3 capsules a day to supply all of the vitamins and minerals required to feed the cell. It makes no difference whether Super CellZyme is taken at meal-time or between meals.

**Indications:**

- Fatigue
- Lack of energy
- Lack of endurance
- Anemia
- All nutritional disorders
- Stress
- Lack of strength
- Eating disorders
- Hemolytic Anemia

Other Transformation Enzyme Fortifiers have many of these vitamins and minerals in different amounts. These are UltraZyme, ReleaseZyme, CalmZyme, GastroZyme, BalanceZyme, and BalanceZyme Plus. ExcellZyme is another formula with many of the necessary nutrients.

Super CellZyme is a natural food supplement. Each capsule contains all of the complex vitamins and minerals that are found in the following foods:

**Broccoli:** Vitamins A, B1, B2, B3, B5, C, E, Calcium (Ca), Magnesium (Mg), Sodium (Na), Potassium (K), Paba (P), Iron (Fe), Copper (Cu), Manganese (Mn), Zinc (Zn), Selenium (Se), Molybdenum (Mo), Chromium (Cr), Cobalt (Co).

**Carrot:** A, B1, B2, B3, B5, B6, folic, C, Choline, Ca, Mg, Na, K, P, Fe, Cu, Mn, Zn, Mo.,Cr, Co.

**Spinach:** A, B1, B2, B3, B5, B6, B12, C, Biotin, Ca, Mg, Na, K, P, Fe, Cu, Mn, Zn, Iodine (I), Se, Mo, Cr, Cn, Si, Ge, S.

**Rose Hips:** A, B1, B2, B3, B6, C, E, Ca, Mg, Na, K, P, Fe, Cu, Mn, Zn, Se, Mo, Cr, Co, F, Ci, Si, Li, B.

**Acerola Cherry:** A, B1, B2, B3, B6, C, Ca, Mg, Na, K, P, Fe.

**Barley Grass:** A, B1, B2, B3, B5, B6, B12, Folic, C,E, K, Biotin, Ca, Mg, Na, K, P, Fe, Co, Mn, Zn, I, Se, Co, Sulfur.

**Garlic:** B2, Ca, Mg, Na, K, P, Fe, Cu, Mn, Zn, I, Mo, Cr.

**Green Pepper:** A, B1, B2, B3, B5, B6, Folic, C, E, Ca., Mg, Na, K, P, Fe, Cu, Mn, Zn, Se, Mo, Cr. Co, Silicon, Boron.

**Wheat Germ:** A, B1, B2, B3, B5, B6, B12, C, E, Ca, Mg, Na, K, P, Fe, Cu, Mn, Co.

**Blue Green Algae:** A, B1, B2, B3, B5, B6, B12, Folic, C, E, Paba, Fe, Co, Mg, Zn, I, Se, Mo, Cr, Co, F, Chloride, Silicon, Vanadium, Germanium, Boron, Titanium.

**Chlorella:** A, B1, B2, B3, B12, Folic, Biotin, Ca, Mg, P, Fe, Mn, Germanium.

**Kelp:** B1, B2, Ca, Mg, Na, K, P, Fe, Cu, Mn, Zn, I, Cr, Boron.

**Flax Seed:** Essential fatty acids.

**Enzymes:** Amino acids.

Plus the following plant enzymes and delivery system: Lipase, protease, amylase, cellulase, pectinase and glucoamylase.

**Note:** This product is to be used with food and not as a replacement for food. Food has thermodynamic energy and enzymes have been proven to release this energy. This product is meant to assure the availability of the nutrients that the body requires. This is especially needed by people who suffer from malnutrition.

# Super HormoneZyme

Super HormoneZyme is formulated with vital hormones and with the enzymes required for the hormones to do their job.

## SUPER HORMONEZYME CAN EASE THE EFFECTS OF NORMAL AGING ON YOUR BODY!

SUPPLEMENT FACTS		
Serving Size 1 Capsule		
Amount Per Serving		% Daily Value
Enzyme proprietary blend	258 mg	
Protease	80,000 HUT	*
Lipase	500 FCCLU	*
Pregnenolone	50 mg	*
Carrot Powder	40 mg	*
DHEA	10 mg	*
*Daily Value not established		

Other ingredients: gelatin, water.  
Enzyme activity is measured in Food Chemical Codex (FCC) units.  
Store tightly in a cool, dry place. Keep out of reach of children

60 capsules per bottle. No fillers.

### Recommended Usage:

**Women:** Take one capsule first thing in the morning.

**Men:** Take two capsules first thing in the morning. Note that men may want to start with only one capsule daily.

William Regelson, M.D. wrote a book with the title: "The Super Hormone Promise." He has spent 20 years of his life researching the above hormones and prescribing them to his patients. Therefore, I highly recommend his book and I am privileged to quote from it. Dr. Regelson gives good, sound medical reasons for why the "Superhormone revolution" has begun and also how it can work for you. Dr. Regelson calls DHEA "the Superstar of the Superhormones" and, in his first chapter, claims that DHEA has been proven to perform the following nutritional restorations:

- Energizing
- Enhancing libido
- Restoring memory
- Rejuvenating the immune system
- Taming stress
- Fighting cancer
- Preventing heart disease
- Reducing body fat
- Therapy for menopause
- Helping erase fine wrinkles
- Helping dry hair
- New hope for lupus sufferers

Dr. Regelson has found in his forty years as a physician and as a medical researcher that one event can lead to a cascade of other events that will eventually be felt in every cell of every organ system throughout the entire body. This is precisely what will happen when the aging clock runs down and our levels of superhormones decline. We do not merely experience a shift in our hormone levels. We also experience profound changes that affect every aspect of our physical and mental well being. In Chapter Two, Dr. Regelson calls Pregnenolone the superhormone for your brain and credits it for the following abilities:

- Potently enhances memory
- Improves concentration
- Fights mental fatigue
- Relieves arthritis

The hormonal cascade works like this. First, Pregnenolone (the precursor of DHEA) is produced. Pregnenolone then works along with the body's enzymes to produce DHEA. Once that takes place, the body is able to produce the necessary estrogen, testosterone, and other hormones required for youthfulness. DHEA is produced from our adrenal glands (located on the kidneys) and also by the brain and by the skin. Pregnenolone is synthesized from the cholesterol that our body makes. However, our ability to make the necessary amount of hormones decreases as we age. In fact, since each hormone is made from an enzyme, and since our ability to produce enzymes is depleted as we age, we can once again see the invaluable need for enzyme supplements. Enzymes are the catalysts necessary for the delivery of the Superhormones in this product.

Combining proper amounts of Pregnenolone and DHEA in the company of enzymes, which provide the necessary delivery system, makes Super HormoneZyme the ultimate longevity product.

**Please note that, as with any hormone product, it is important to follow the recommended dosages.**

**Super HormoneZyme is not recommended for women who are pregnant and/or lactating.**

# Vitamin C Complex

Vitamin C Complex provides the necessary nutrients that support the immune system in an easily-assimilated form.

**NUTRIOTIONAL SUPPORT TO REMAIN VITAL, HEALTHY, AND BALANCED!**

SUPPLEMENT FACTS			
Serving Size 1 Teaspoon			
Amount Per Serving		% Daily Value	
Vitamin C (from sago palm and magnesium ascorbate)	1840	mg	306%
Vitamin E (as d-alpha tocopheryl succinate)	50	IU	167%
Calcium (as calcium citrate)	100	mg	10%
Magnesium (as magnesium ascorbate)	160	mg	40%
Zinc (as zinc citrate)	5	mg	33%
Selenium (as selenium citrate)	100	mcg	143%
Chromium (as chromium polynicotinate)	50	mcg	42%
Molybdenum (chelazome®)	100	mcg	133%
Sodium (as sodium bicarbonate)	192	mg	8%
Potassium (as potassium citrate)	35	mg	<2%
Flaxseed	250	mg	*
Hesperidin	75	mg	*
Rutin NFXI	50	mg	*
Vanadium Citrate	20	mg	*
Lipoic acid	15	mg	*
Tzyme™ Enzyme Blend (Protease, Phytase, alpha-Galactosidase, Glucoamylase, Pectinase, Peptidase, Cellulase, Hemicellulase)	50	mg	*
*Daily Value not established			

Other ingredients: Natural red raspberry, sodium bicarbonate (flavor enhancers).

Each bottle contains 4 oz.

**Recommended Usage:** Take 1/2 teaspoon two times daily with food or as directed by your health care practitioner.

**Indications:**

AIDS	Diabetes	Infections
Alcoholism	Eczema	Infertility
Alzheimer's	Enzyme interactions	Menopause
Asthma	Fatigue	Multiple sclerosis
Atherosclerosis	Gallbladder disease	Osteoarthritis
Autoimmune	Gingivitis	Parkinson's
Cancer	Glaucoma	Periodontal
Candidiasis	Hepatitis	Peptic ulcers
Capillary fragility	Herpes simplex	Peripheral vascul.
Cataract	Herpes zoster	Preeclampsia
Cervical dysplasia	High blood pressure	Rheumatoid arth.
Crohn's disease	Hives	Skin ulcers
Common cold	Macular degeneration	Sports injuries
Coronary artery	Mitral-valve prolapse	Wound healing

**Contraindications:**

- Avoid taking 48 hours prior to dental work
- Diarrhea
- History of kidney stones or failure
- G-6-P dehydrogenase deficiency
- Hemosiderosis / hemochromatosis (iron overload)

**NOTE:** Certain Individuals may experience mild stomach discomfort or even diarrhea. If you experience these symptoms, please add **Gastrozyme** to your regimen.

If an individual could choose only one vitamin supplement, it should be vitamin C. Although most animals can manufacture this vitamin, the human cannot. Even with all of the various vitamin deficiencies that humans have suffered throughout history, none have been as great or as frequent as scurvy. The primary function of vitamin C is to manufacture collagen, the primary protein substance of the human body. Specifically, vitamin C aids the formation of hydroxyproline. In addition to its role in collagen metabolism, vitamin C is also critical to immune function, to the manufacture of certain nerve transmitting substances and hormones, to carnitine synthesis, to the absorption and utilization of other nutritional factors, and it is even one of the most important nutritional antioxidants.

Perhaps the most significant aspect of this vitamin is its excellent poisoning capacity of the blood, serving as the perfect blood redox buffer. Americans live in a world contaminated with a wide range of toxins in our air, water, and food which all destroy vitamin C. Since most individuals ingest large quantities of sugar and processed foods, it is no wonder that over 60% of Americans receive less than the RDA of this vital nutrient. It has been estimated that 98% of all US citizens are subclinically vitamin C deficient.

Therefore, the **Vitamin C Complex** is specifically designed to accomplish all of the vitamin's unique needs while providing this nutrient in an easily-assimilated, buffered form. Although available in numerous forms, research continues to document that ascorbic acid remains the easiest to absorb, since it keeps digestive disturbances down to a minimum while providing the body with an excellent source of alkaline minerals.

#### Component Benefits:

**Vitamin C (Ascorbic acid)** is a water-soluble vitamin that plays a vital role as an antioxidant, an antiviral, an antihistamine, and as the glue that forms collagen. It also serves as a detoxifier of the liver and is involved in the formation of liver bile.

**Vitamin E (alpha tocopherol acid succinate)** is a powerful antioxidant that protects cell membranes and other fat-soluble body parts, vitamin C recharges and reactivates oxidized Vitamin E.

**Lipoic acid** is both water- and fat-soluble and is also more effective than either Vitamin E or Vitamin C alone. It can mimic the effects of Vitamin C when that vitamin is in insufficient concentrations.

**Hesperidin complex**, an organic source of Vitamin C, is a strong bioflavonoid that has been shown to reduce hot flashes, bruising, and bleeding gums.

**Non-citrus Bioflavonoids** contain all of the benefits found in hesperidin complex.

**Selenium (as Selenium citrate\*)** protects the immune system by preventing the formation of free radicals.

**Zinc (as Zinc citrate\*)** serves as an enzyme activation cofactor, a free radical scavenger, and stimulates the immune response.

**Potassium (as Potassium citrate\*)**, an alkaline mineral that is responsible for balancing acid/alkaline integrity, assists carbohydrate and protein metabolism.

**Molybdenum citrate\*** aids the body in detoxification (especially sulfites) and works synergistically with Vitamin C.

**Vanadium aspartate** helps maintain glucose regulation, thereby limiting any negative effects a large quantity of Vitamin C may have on blood sugar balance.

**Chromium Polynicotinate**, an essential trace mineral that also aids in the regulation of blood sugar levels, is needed to counteract any alterations that a large dose of Vitamin C may create.

**Calcium citrate\***, the most abundant mineral in the body, is an alkaline mineral that is needed to maintain cellular pH balance.

**Magnesium Ascorbate** is a source of Vitamin C and is essential for maintaining cellular pH balance, re-energizing Vitamin E, and is the first line of antioxidant defense.

(\*the citrate form is more readily absorbed and leaves an alkaline ash residue)

**Tzyme™ Protease Blend** is a proprietary blend of protease that aids in the lysis, targeting, and absorption of all plant-based substances. These enzymes blend with free-floating proteins and thus limit their otherwise destructive tendencies, which allows for the maximum absorption of all nutrients.

**Tzyme™ Polysaccharolytic Blend** is a proprietary blend of enzymes that facilitates the digestion of all carbohydrates and ensures the absorption of minerals by preventing the chelating effects of phytates, pectinates, and oxalates.

The powerful, synergistic ingredients in this unique Vitamin C formulation provide the necessary nutrients for supporting the immune system, for aiding the manufacture of vital hormones, and for collagen metabolism. The addition of carefully blended enzymes significantly strengthens this product's absorption capabilities. Perhaps the most vital formulation in our product line, **Vitamin C Complex** is certain to offer the support that the body needs to remain vital, healthy, and balanced.
